

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL VALLEY REGION**

RESOLUTION NO. R5-2006-XXXX

**APPROVAL OF STORM WATER MANAGEMENT PLAN
FOR
PORT OF STOCKTON
MUNICIPAL SEPARATE STORM SEWER SYSTEM NPDES PERMIT**

WHEREAS:

1. The Regional Board approved renewal of the Port of Stockton (Port) municipal separate storm sewer system (MS4) permit on 15 October 2004. (Order No. R5-2004-0136, NPDES Permit No. CAS0084077)
2. Provision D.5 of the permit requires the Port to prepare a Storm Water Management Plan (hereafter "SWMP"), which shall be subject to a public review period and approval by the Regional Board.
3. The SWMP includes program elements to reduce the discharge of pollutants in storm water to the maximum extent practicable, and to effectively prohibit non-storm water discharges into the MS4.
4. The SWMP describes the framework for management of storm water discharges during the term of the permit, including the goals and objectives, legal authority, source identification process, funding sources, fiscal analysis, performance standards, Best Management Practice (BMP) evaluation and improvement process, and monitoring plan of the storm water management program.
5. The goal of the SWMP is to reduce the degradation, by urban runoff, of the beneficial uses of natural resources in the Stockton Urban Area. These natural resources include major waterways and tributary streams, and regional groundwater aquifers.
6. The 30-day public review for the Port's SWMP ended on 26 August 2005 with no comments received.
7. Regional Board staff has reviewed the SWMP and found it to be in compliance with the Port's MS4 permit.

THEREFORE BE IT RESOLVED, that the Central Valley Regional Water Quality Control Board:

Approves the Port of Stockton's Storm Water Management Plan.

RESOLUTION NO. R5-2006-XXXX
APPROVAL OF STORM WATER MANAGE PLAN FOR
CITY OF STOCKTON AND COUNTY OF SAN JOAQUIN

- 2 -

I, Kenneth Landau, acting Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of a Resolution adopted by the California Regional Water Quality Control Board, Central Valley Region, on 26 January 2006.

KENNETH D. LANDAU, Acting Executive Officer
